Long-Term Surveillance and Maintenance Program 2002 Title I Report Available

(Grand Junction, Colorado)—The U.S. Department of Energy (DOE) Grand Junction Office announces the availability of the Long-Term Surveillance and Maintenance Program *2002 Annual Site Inspection and Monitoring Report for Uranium Mill Tailings Radiation Control Act Title I Disposal Sites*.

In 2002, the Long-Term Surveillance and Maintenance Program at the DOE Grand Junction, Colorado, Office was responsible for providing stewardship services at 19 uranium mill tailings disposal sites established under Title I of the Uranium Mill Tailings Radiation Control Act of 1978. Services include conducting site inspections and maintenance; monitoring environmental media and implementation of institutional controls; conducting necessary corrective actions; and performing other regulatory, administrative, records, and stakeholder participation functions. The annual report presents a summary of the stewardship services performed in 2002 and verification that these Title I disposal sites remain in compliance with license requirements.

Copies of the annual report have been sent to information repositories associated with the Title I sites.

This report is also available on the DOE Grand Junction Office website at

http://www.gjo.doe.gov/programs/ltsm/general/tech_doc/index.htm. In addition, the individual site inspection reports are accessible by clicking on a site on the map or in the dropdown box at

<http://www.gjo.doe.gov/programs/ltsm/maps/title1.htm>.

Requests for hard copies should be directed to Art Kleinrath, DOE Grand Junction Office Program Manager, 2597 B 3/4 Road, Grand Junction, CO 81503, or at 970-248-6037.
